Create Your Pro Account Today

What is Zapier?

Zapier provides easy automation for busy people. Zapier moves information between your web apps automatically, so you can focus on your most important work.

How do Zapier and SignUpGenius work together?

We've partnered with Zapier to make it really simple to pass information from SignUpGenius to some of the most popular web apps around.

Here are some examples of what you can do with SignUpGenius and Zapier:

- ✓ Sync your contacts between Constant Contact and SignUpGenius.
- ✓ Add people to your Salesforce account after they sign up.
- ✓ Export your sign up data to a Google spreadsheet daily.

These are just a few examples. Zapier has more than 750 different applications to connect to!

What do I need to get started?

Good question. To start, you will need a [SignUpGenius Pro account](#), as well as an account with [Zapier](#).

We've also created two quick videos to help get you started.
